Decisions made during stand-up meetings:
- Selected user-stories that we'll implement for this iteration
- Drew diagrams
- Allocated Responsibilities
- Selected subset of user stories
- Allocated respective user stories
- Set up Github
- Commited user stories to github

Week 7:
- Decided on ordering and structure of UML Diagrams:
- Sequence Diagram
- Class Diagram
- Integrated respective code; changing variables names to be more suitable and adopting uniform variable names
- Reading through everyone's code
- Deciding on a consistent commenting of code so that understanding of other's code is easier
- Velocity Chart created
